

Guadalupe Franco

Full-Stack Software Engineer

Querétaro, México | +52 442 351 0534 | franco.rguadalupe@gmail.com
guada-franco.pages.dev | linkedin.com/in/guadalupe-franco | github.com/gdpe-franco

Full-Stack Software Engineer with 3+ years of experience building and maintaining SaaS platforms, APIs, and custom integrations, with a stronger focus on backend engineering. Known for understanding systems in context: the workflows involved and the people who rely on them. Cares deeply about clear and reliable code as part of creating software that can be trusted and built upon.

Skills

Backend & APIs	PHP (Laravel, Symfony), Python (Django), Go, REST & SOAP APIs, Microservices
Frontend	JavaScript, TypeScript, React, Vue.js (Nuxt), jQuery, HTML, CSS
Data stores	PostgreSQL, MySQL, Redis
Engineering	Git, Docker, CI/CD (GitHub Actions, Jenkins), Cloudflare Pages, PHPUnit, Test-Driven Development (TDD), Design Patterns, SOLID Principles, Postman, Swagger/OpenAPI, New Relic, Sentry
AI Development	AI agents, Model Context Protocol (MCP), Codex, Claude Code, GitHub Copilot
Languages	Spanish (Native), English (C1), Portuguese (A1)

Experience

Software Engineer

Sep. 2025 – Jul. 2026

MedTrainer | Querétaro, México | Remote

- Delivered end-to-end Symfony features and APIs, from technical design and implementation to testing, deployment, and production support for a SaaS platform serving more than 8,000 organizations.
- Authored and presented technical design proposals, contributing to architecture discussions and long-term platform improvements.
- Built an internal MCP integration with OpenAI's Responses API to securely expose platform data to AI agents.
- Reviewed code and used AI-assisted development tools for research, prototyping, and routine engineering tasks.

Full-Stack Developer

Aug. 2023 – Sep. 2025

Mienvío | Monterrey, México | Remote

- Developed Laravel applications, Go and Python microservices, and a Vue.js internal tool for a logistics platform serving more than 1,000 active merchants.
- Modernized shipment and label creation workflows by migrating legacy Laravel and React functionality.
- Implemented a custom SAML 2.0 Single Sign-On integration using Auth0 for enterprise customers.
- Built APIs, billing reports, and marketplace integrations for Shopify and WooCommerce while supporting carrier integrations including FedEx, UPS, and Estafeta.
- Conducted code reviews, onboarded new engineers, and collaborated with cross-functional teams to deliver customer-focused solutions.

Web Developer Intern

2022 – 2023

Universidad Politécnica de Querétaro | Querétaro, México | On-site

- Created UML diagrams to support system analysis and project planning.
- Designed user interfaces in Figma and implemented layouts using PrimeVue.
- Developed backend API functionality using Laravel.
- Documented software components to improve maintainability and future development.

Education

B.Sc. in Computer Systems Engineering

2020 – 2023

Universidad Politécnica de Querétaro | Querétaro, México

Technical High School Diploma in Programming

2017 – 2020

CBTis 118 | Querétaro, México
